SHOW THE WORLD WHAT YOU CAN DO

Dossier

The Dossier should show evidence of your language growth year-by-year, and entries in this section should complement those in the biography and passport sections of your portfolio. The "Dossier" may consist of a hands-on, tangible collection of your best work, such as dialogues, narratives, projects, research, compositions, and copies of awards. Samples of your best work should include all modes of communication and reflect the use of media and technology; such as, PowerPoint presentations, video clips, CDs, DVDs, audio files, photos.

For each item in your collection, please write a short description in the table of contents and include these sheets at the beginning of the Dossier section of your portfolio. Each year you need to review your portfolio at least one time. Choose items that you no longer want in your Dossier. Remove any items that you no longer wish to include, but remember to save at least one example that demonstrates your language growth from year to year.
