

Financial Disclosure for Visiting Teachers in Ohio 2018

Teacher Salaries in Ohio

Unlike the compensation practices in many foreign countries, salaries are not uniform for all teachers in the United States. Salaries vary greatly across each state, including Ohio, and they are determined by local school districts and educational service centers based on two factors:

- Level of educational attainment (university degree); and
- Years of full-time, formally-recognized experience.

During the 2016-2017 school year:

- Visiting teacher salaries in Ohio ranged from \$39,000 to \$64,341; and
- The average visiting teacher salary was \$48,439.

Important: Salaries quoted are gross salaries before any tax or other deductions are made.

Notes

In addition to these costs, most visiting teachers will have to pay refundable deposits on rental properties and for some utilities since they will not have an established credit history in the U.S. New visiting teachers coming to Ohio spend between \$2,500 and \$5,000 of their own funds on initial expenses related to housing, transportation, utilities and other miscellaneous initial expenses.

Ways to reduce expenditures include sharing housing with another visiting teacher if there happens to be one in the area or living with a local host family.

Cars purchased by visiting teachers that have been well-maintained can be sold at the conclusion of their stay in the U.S.
