Vision

A nation in which all individuals will be prepared for the demands of an interdependent world by attaining competence in more than one language and culture

Mission

To provide leadership in facilitating and promoting policies and practices that support language education

Purpose

- To identify and advocate positions on key issues
- To collaborate with other organizations to advance and support quality teaching, learning, and leadership
- To communicate best practices across international boundaries
- To promote state-level positions in languages

Who is NCSSFL?

NCSSFL is an organization of education agency personnel from across the United States who have the responsibility of foreign/world language education at the state level.

NCSSFL benefits from the support of Associate Members from states that do not yet have education agency personnel in foreign/world language education, from organizations whose missions include world language education, and from retired educators who have served in these roles.
